RAHUL DIWAKAR

Agra, UP | +91 7037119579 • diwakarr135@gmail.com • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Full-Stack / Software Developer (MCA '24) with a unique, data-centric background bridging comprehensive analytics foundations with modern web systems. Proficient in building responsive frontend user experiences using React.js and designing performance-optimized backend models using Node.js and Advanced SQL. Skilled at optimizing database architectures, managing dynamic states, and integrating data visualization logic. Proven debugger with a 240+ DSA problem-solving track record.

PROJECT EXPERIENCE

Smart Task Administration System | Full-Stack Developer | 2026

Stack: *Next.js (v14), Node.js, Express.js, Tailwind CSS, MongoDB, JWT*

- Architected a dark-themed project coordination application featuring an interactive Kanban Board with drag-and-drop states to streamline team workflows.
- Implemented Workflow Analytics via data visualization (Donut Charts) and a custom Deadline Calendar to reduce monitoring overhead for multiple parallel projects by ~40%.
- Engineered a file attachment pipeline directly into specific items using Multer/Cloudinary, allowing quick media reference and reducing manual document-sharing loops.
- Developed a secure infrastructure with JWT Authentication and a real-time Activity Log Drawer, providing 100% visibility into user actions, logs, and audit trails.

Multi Warehouse Inventory Platform | Backend & Database Engineer | 2026

Stack: *React.js, Node.js, Express.js, MySQL, REST APIs*

- Architected a full-stack supply ecosystem to manage product workflows, stock tracking, and supplier data across multiple geographic warehouse locations.
- Optimized database architecture with advanced SQL queries and dynamic joins, reducing audit reconciliation time by ~55%.
- Engineered comprehensive modules for stock tracking, low-supply alerts, and automated reorder triggers, which eliminated manual operational errors by 70%.
- Integrated secure, role-based JWT authentication enforce strict access control between multi-level warehouse admins and floor supervisors.

Store Rating App | Full-Stack Developer | 2026

Stack: *React.js, Node.js, Express.js, MySQL, JWT, REST APIs, Vercel, Render, Aiven*

- Built a role-based store rating platform with separate Admin, Store Owner, and Customer workflows using JWT authentication and protected REST APIs.
- Implemented user and store management, rating creation and updates, customer feedback, and role-based access control using MySQL relational data models.
- Deployed the full-stack application using Vercel, Render, and Aiven MySQL, connecting the frontend, backend APIs, authentication, and production database.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), Python, C, C++
- **Web Technologies / Frontend:** React.js, HTML5, CSS3, Component-Driven Design
- **Backend & Databases:** Node.js, Express.js, REST APIs, MySQL, Advanced SQL, MongoDB
- **Tools & Platforms:** VS Code, Git, GitHub, Postman, Microsoft Power BI, Excel
- **Core Engineering Concepts:** Database Indexing & Joins, CRUD Architecture, Multi-Location Supply-Chain Logic, Dynamic State Management, Data Pipeline Analytics

PROBLEM SOLVING & EDUCATION

- **Master of Computer Applications (MCA)** | RBS Management Technical Campus, Agra | *CGPA: 6.86* | *2022 – 2024*
- **Bachelor of Computer Applications (BCA)** | Raja Balwant Singh College, Agra | *CGPA: 6.50* | *2018 – 2022*
- **Data Structures & Algorithms (DSA):** Solved **240+ core engineering problems** on GeeksforGeeks, showcasing a strong grip on algorithm efficiency.

TECHNICAL CERTIFICATIONS

- **Advanced SQL Certification** — Verified by HackerRank for profiling complex business logic queries.
- **Data Science & Analytics Foundations** — Granted by HP LIFE, Cisco (Data Analytics Essentials), and Google (Advanced Google Analytics).
- **Enterprise Data & Business Intelligence Simulations** — Completed job simulation credentials with Forage for PwC Switzerland (Power BI), Tata Group (Data Visualization), and BCG (Data Science).
- **Python Programming Core** — Certified by Infosys and Cisco (Python Essentials 1).

ACHIEVEMENTS & EXTRA-CURRICULAR

- **Selected for Smart India Hackathon (SIH) 2020:** Developed a tech prototype under a strict 24-hour regional constraint at Hindustan College.
- **Volunteer Web Development Instructor:** Mentored online learners in core frontend workflows, reinforcing clean code paradigms.
