PROFESSIONAL SUMMARY

Full Stack Developer and MCA graduate with hands-on experience building responsive web applications using React.js, JavaScript, Node.js, Express.js, and SQL/NoSQL databases. Experienced in developing REST APIs, implementing authentication and role-based access control, and building interactive dashboards and data-driven applications. Strong foundation in data structures, algorithms, and database design, with 240+ DSA problems solved. Seeking opportunities in Full Stack Development and Software Engineering to build reliable, scalable software solutions.

PROJECT EXPERIENCE

Pulse | **Full-Stack Developer** | **2026**

Tech Stack: *React, TypeScript, Node.js, Express.js, MongoDB, Socket.IO, Python, FastAPI, scikit-learn*

- Developed a real-time monitoring dashboard with live updates using Socket.IO and interactive data visualizations.
- Built backend APIs with Node.js, Express.js, MongoDB, and JWT-based authentication to manage monitoring data and user access.
- Integrated a Python-based AI service using FastAPI and scikit-learn to detect unusual activity and support automated issue analysis.
- Implemented issue fingerprinting and an AI watchdog to help identify and investigate recurring system issues.
- **Live Demo:** https://pulse-eta-eight-32.vercel.app/
- **GitHub:** https://github.com/rahul-diw/pulse

Sony Sound Range | **Frontend Developer** | **2026**

Tech Stack: *React, TypeScript, Three.js, Lenis, Web Audio API*

- Built an interactive product showcase featuring headphones, earbuds, speakers, and home theater systems.
- Developed scroll-driven 3D product visualizations using Three.js to create an immersive product storytelling experience.
- Implemented smooth scrolling and cinematic animations to enhance user engagement and browsing experience.
- Integrated the Web Audio API to support a generative soundtrack for the interactive experience.
- **Live Demo:** https://sony-sound-range.vercel.app/
- **GitHub:** https://github.com/rahul-diw/sony-sound-range

WarehouseFlow | **Full-Stack Developer** | **2026**

Tech Stack: *React, Node.js, Express.js, MySQL, REST APIs*

- Developed a multi-warehouse inventory management application for tracking products, stock levels, and warehouse operations.
- Implemented REST APIs to manage inventory data and support communication between the frontend and backend.
- Designed relational database structures and SQL queries to manage inventory records across multiple warehouse locations.
- Built inventory management workflows to improve visibility into stock levels and help identify low-stock items.
- **Live Demo:** https://multi-warehouse-system.vercel.app/
- **GitHub:** https://github.com/rahul-diw/multi-warehouse-system

Smart Task Platform | **Full-Stack Developer** | **2026**

Tech Stack: *Next.js, React, Node.js, Express.js, MongoDB, JWT*

- Developed a task and project collaboration platform with workspace management, task assignment, and status tracking.
- Implemented JWT authentication, role-based access control, and task activity tracking.
- Built an interactive dashboard to help users organize tasks and monitor project progress.
- **Live Demo:** https://smart-task-platform-alpha.vercel.app/
- **GitHub:** https://github.com/rahul-diw/Smart-Task-Platform

INTERNSHIP EXPERIENCE

- **Frontend Developer Intern | AI Tech Gen Technologies**
  Remote | September 2026 – October 2026
- Completed a one-month internship program in Frontend Development, with completion confirmed by the company's internship certificate.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, Python, C, C++
- **Frontend Development**: React.js, Next.js, HTML5, CSS3, Responsive Web Design, Component-Driven Design
- **Backend Development:** Node.js, Express.js, REST APIs, JWT Authentication, Socket.IO
- **Databases:** MongoDB, MySQL, Advanced SQL, Database Design, Indexing & Joins
- **AI/ML Technologies:** Python, FastAPI, scikit-learn
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Three.js, Web Audio API
- **Core Concepts:** Data Structures & Algorithms, CRUD Operations, Authentication & Authorization, Dynamic State Management, Database Optimization

PROBLEM SOLVING & EDUCATION

- **Master of Computer Applications (MCA) | RBS Management Technical Campus, Agra | CGPA: 6.86/10 | 2022–2024**
- **Bachelor of Computer Applications (BCA) | Raja Balwant Singh College, Agra | CGPA: 6.50/10 | 2018–2022**
- **Data Structures & Algorithms: Solved 240+ problems on GeeksforGeeks, demonstrating problem-solving skills and knowledge of algorithmic concepts.**

TECHNICAL CERTIFICATIONS

- **Advanced SQL: HackerRank certification.**
- **Data Analytics: HP LIFE — Data Science & Analytics Foundations; Cisco — Data Analytics Essentials; Google — Advanced Google Analytics.**
- **Job Simulations: Forage — PwC Switzerland (Power BI), Tata Group (Data Visualization), and BCG (Data Science).**
- **Python Programming: Infosys and Cisco — Python Essentials 1.**

ACHIEVEMENTS & EXTRA-CURRICULAR

- **Smart India Hackathon (SIH) 2020:** Selected to participate in a technology challenge involving prototype development under a 24-hour regional competition at Hindustan College.
- **Volunteer Web Development Instructor:** Mentored online learners in frontend development fundamentals and helped them understand web development workflows.
